

M1500

Hands-free communication
without a cord

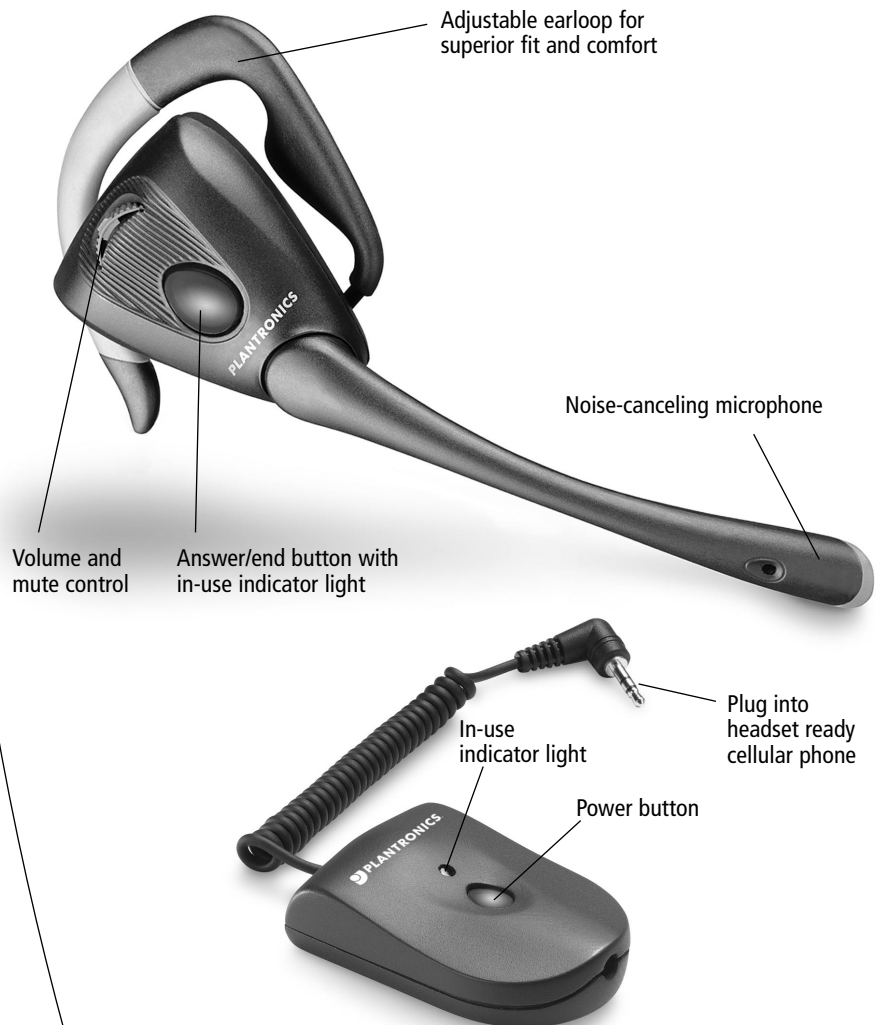

PLANTRONICS
World Leader in Communications Headsets

Benefits and features

- **Use your existing cellular phone**
Our *Bluetooth*™ solution works with most headset-ready cell phones.
- **Lightweight Comfort**
Weighing less than an ounce, the headset features an adjustable earloop to ensure a snug, comfortable fit.
- **Extended Talk Time**
Talk continuously for up to 3 hours between charges. Quick charging takes only one hour. Continue your conversation while charging.
- **One-Touch Controls**
Easy mute and volume adjustments, one-touch control to answer or end calls; initiate voice activated dialing.*
- **Superior Sound**
Adjustable noise-canceling microphone eliminates distracting background noise and delivers clear and reliable transmission, vital for voice-activated applications and dictation.
- **Range**
Bluetooth™ wireless technology with range of up to 30 feet from base unit.

Includes AC adapter and rechargeable battery.

The Plantronics M1500 series headset and adapter comply with version 1.1 of the Bluetooth specification and support the Headset Profile.

*Features such as answer/end and voice dialing require that your cellular/PCS phone or network supports these features via a headset. Additional services may be required. Contact your cellular/PCS service provider for more details.
